No. 754.

Tumkur District

Deputy Commr's Office

Tumkur, 14th March 1898.

To,

The Chief Secretary to the
Government of Mysore—

Sir,

Adverting to your docket No. 2261
C. 1463-98
of the 1st January 1898 and reminder—
No. 2941/1712 of the 18th ultimo enquiring
what steps have been taken for the col-
lection of contribution towards the re-
storation of the Handémallalli Tank
in the Sira Taluk as per Government
order No. 852-90 of the 1st October 1890
regulating the levy of contribution for
works costing over Rupees 2500/-, I have
the honor to state that an extent of
59 acres and 26 Guntas in Kolding
which has been converted into wet an
average contribution of 4 Rupees is levy
hied and that a sum of 236 Rupees was
realized by the sale of waste lands mea-
suring 60 acres and 20 Guntas.

2

2. Applications are still being received for conversion of dry fields into wet and on them all an acreage contribution of 4 rupees will be levied. It is not now possible to say what may be realized.

I have the honor to be,

Sir,

Your most obedient Servant

Deputy Commissioner

Memo. No 20202
R.S. 50-93
of the 16 Nov. 1895.

Submits the further information called for in regard to the levy of acreage contribution on account of lands benefited by the restoration of the Kandikere Halli Tank in the Tiptur Taluk -

N450

Tumkur District
Deputy Commissioners Office
Tumkur 20th November 1895.

To.

The Revenue Secretary to the
Government of Mysore.

Sir,

With reference to your docket No: $\frac{20294}{R.F.156-93}$ of the 10th May 1895 calling for further information in regard to the levy of acreage contribution on occupied dry lands benefitted by the restoration of the Handenahally tank in the Sira Taluk, I have the honor to state as follows:-

1 Out of the total extent of 639 acres-39 guntas of dry land estimated to be capable of being converted into wet, 525 acres-32 guntas was under occupation when the proposal for

raising

raising the capacity of the tank was made.

2. The work was completed towards the end of 1892-93 when the same area as above noted was under occupation.

3. The market value of good dry land is reported to be Rs 20/- per acre while that of an acre of wet land of superior quality is Rs 50/-. The difference is thus Rs 30/-, but for lands of average quality, the difference may be assumed at Rs 20/-.

4. The extent of the dry garden land upon which no contribution has been levied is now reported to be 43 acres - 36 guntas. These 43 acres - 36 guntas have also come under the irrigation of the tank, since its restoration and are included in the area of 305 acres - 19 guntas brought under

under wet cultivation up to 1893-94.
No contribution was levied on the above
area of 43 acres-36 guntas as they were
originally lands watered by means
of wells and assessed as such at Rs
3-8-0 to Rs 4-0-0 per acre. Waterees
of Rs 3/- per acre has however been
levied on this area over and above
the Survey assessment as in the case
of all other lands newly brought
under the irrigation of the tank.

5. Exemption from payment
of contribution was sanctioned by
the Deputy Commissioner Mr. B. K.
Venkatanarada Iyengar in regard
to 102 acres-2 guntas which were
granted to the ryots as compensation
for the loss of their houses and lands
submerged by raising the capacity
of the tank.
